*Oscar, The James and Grace Lee Boggs School, 2014*

“When you have a problem, you always find a way to fix it. Say someone was stuck at the bottom of a cliff and you had a rope to get them down, but the end of the rope snagged on a rock and you can’t pull it up. There’s always another way to get that person back up and the solutionary is usually the person who figures out that other way.”
